

Microsoft Family Safety

Set screen time limits

No more arguing. Set it and forget it with a balanced limit on your kids' devices and apps

Filter Content

Make sure your kids view content and play games that are right for their age

Activity Reports

See your kids' weekly activity across all their apps, games, and devices

Locate your loved ones

Stay connected even when you're apart with location sharing and alerts.

Microsoft 365 Family includes premium Office apps, OneDrive and unlocks premium features in the Microsoft Family Safety App

Microsoft 365 Apps

1 TB of OneDrive Cloud Storage
with Personal Vault per M365 user

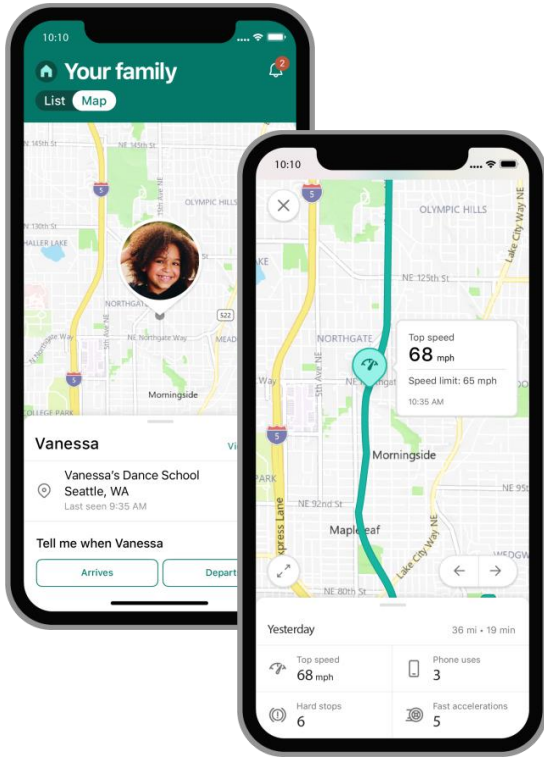

Microsoft Family Safety

Learn more at [Microsoft.com](https://www.microsoft.com)

Premium features only available with Microsoft 365 Family

Location Alerts

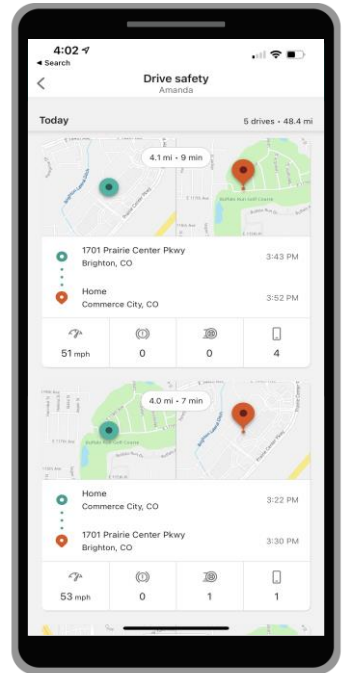

Have peace of mind with location alerts when someone leaves or arrives at their location.

Drive Safety Reports

Get insights on how your family is doing on the road, including how many times the driver uses their phone, their top speed, and even the number of times they brake hard.

Drive History

Review your driving habits and see where you and your family have been
